

MEMORANDUM FOR:

Harry Rowen asked me to provide you with updated versions of the NIOs' background briefing material for Mr. McMahon's use at the next Worldwide Congressional briefing date next week.

I understand from that he has already told you "no changes" are needed in his material. Constantine Menges says the same.

Attached are copies of the updates provided by the other NIOs involved in the briefing. In the case of the East Asia paper, there's only one small change on one page (clipped). I'm not aware of where the new material is in the other papers.
